

St Paul's
ANGLICAN GRAMMAR SCHOOL

Let's Talk!

New options for the future...

Enrol Now for 2025 and beyond

Become one of our pioneering families, offering your child a chance to graduate from Gippsland's leading independent school.

Traralgon Campus to VCE

A New Option

Expanding Choice & Opportunity

For the first time, a high-quality independent education from Kindergarten to VCE is being offered in the Latrobe Valley, eliminating the need for students to travel long distances to access education outside the region. From 2026, St Paul's will offer Years 11 and 12 at our Traralgon Campus, providing the final chapter of secondary education and giving the Latrobe Valley and Wellington regions easy access to one of Australia's leading regional schools.

St Paul's consistently outperforms all other Gippsland schools in VCE results. We offer Kindergarten through to Year 12 in purpose-built facilities spread across spacious grounds that reach all the way to a beautiful wetland area bordering the Latrobe River.

Our teachers are motivated and caring, providing a personalised learning experience that encourages academic effort from all students to best prepare them for the future. We support and celebrate each individual child and believe that a strong partnership between students, parents and teachers is the perfect way to ensure an exceptional learning environment.

St Paul's commitment to academic excellence and highly professional teaching is unparalleled, encouraging all students to work toward their potential, valuing diversity and respecting individual goals.

We partner this commitment with a range of co-curricular opportunities that cater to each child's interests and aptitude, assisting all students,

of all levels, to pursue their potential. Combined with a range of service and leadership experiences, we assist each child to develop resilience and confidence as they grow into independent and articulate young adults. Lifelong connections and friendships are established at St Paul's and support our students as they move on to their careers or further study.

At St Paul's, we have a proven record of preparing students for a successful future – whether that be undertaking tertiary study or entering the workforce. Our school size means that every student is safe, known and nurtured. We look forward to continuing this tradition and invite you to discover what sets St Paul's apart from other schools.

Milestones

2022

New Sports Precinct

Our outdoor basketball courts were relocated and expanded to incorporate four full-size courts, giving our students access to more hardcourt space within our growing secondary school.

2023

New Futures Centre

As the multi-level Futures Centre neared completion, the potential of an independent VCE alternative in the Latrobe Valley moves much closer to reality. Planning for curriculum delivery also commenced, with an expansion of teaching leadership and dedicated focus on planning for the introduction of VCE studies and timetabling. In addition, wellbeing, careers and study skills programs for Years 11 and 12 students are being developed ready for commencement in 2026.

2024

The Futures Centre

The Futures Centre's cutting-edge facilities are ready to be enjoyed by staff, students and families. Students are pleased with the new modern facility, which includes a resourceful library, state-of-the-art performing arts facilities, indoor-to-outdoor cafeteria facilities and wellbeing counselling spaces. Multi-purpose learning and gathering spaces are being utilised for collaborative work and enjoyment.

2025

VCE Subject Selections

A breadth of subjects will be offered by highly professional and experienced teachers, with subjects tailored to student aims. The range

of subjects offered will include all courses that are prerequisites for further study, as well as broader options depending on student interest.

Every year level has its own unique interests and preferences. A range of VCE subjects from Year 10 through to Year 12, as well as vocational pathways will be offered to cater for these preferences.

Outstanding educators will support the learning and academic interests of our most senior students as they complete their secondary schooling.

It is anticipated that the core VCE subject selection for Year 11 in 2026 and Year 12 in 2027 is likely to include (at a minimum):

- English
- Further Mathematics
- Mathematical Methods
- Specialist Mathematics
- Biology
- Chemistry
- Physics
- Psychology
- Health & Human Development
- Physical Education
- Legal Studies
- Business Management
- Japanese
- Studio Arts
- VET Sport and Recreation
- Music

Based on student and cohort preferences we will endeavour to cater to the most requested subjects for our students in Years 11 and 12.

With St Paul's having two VCE campuses from 2026, there will also be an option for students from Traralgon or Warragul to join alternative subjects online in addition to those offered at their campus. (subject to timetable capacity). Students who wish to study a subject through Virtual Schools Victoria or the Victorian School of Languages will be supported in this alternative.

2026

New Specialist Areas

As our student cohort grows, we are ready to grow with them. Specialist areas will be designed and built during 2025 to enhance student learning, providing cutting-edge technologies and a comprehensive breadth of VCE subjects.

2027

First Year 12 Students Graduate

Give your child the opportunity to pursue their potential right here in the Latrobe Valley.

Have Questions?

Let us answer them for you or feel free to contact us.

How soon will VCE be offered at St Paul's Traralgon Secondary School?

VCE subjects already run for Year 10 students across a range of subject areas. We will offer VCE at Year 11 in 2026 and grow to include Year 12 in 2027. Students who commenced Year 7 in 2022 will be our pioneering VCE students at the Traralgon Campus.

Are there any differences in fees or uniform across the campuses?

No, fee levels and uniform will be the same across all campuses.

What specialist facilities will be offered at the Traralgon Campus?

St Paul's commenced construction in 2022 of a new \$9 million 'Futures Centre' as part of a broader \$15 million capital investment in its Traralgon Campus. The Futures Centre will be a striking multi-level building with outstanding performing arts facilities, a modern secondary library adjoining a spacious cafeteria, a community hub and a range of student learning and gathering spaces, both large and small. Following on from the building of the Futures Centre, from 2026 consecutive stages consisting of specialist and general classrooms will be built to cater for the delivery of a high-quality VCE curriculum.

How can I get to school?

Getting to St Paul's is easy from areas serviced by either the Country School Bus network or the PTV system.

The Country School Buses service areas include: Callignee, Cowwarr, Koornalla, Flynn, Glengarry, Gormandale, Tyers, Toongabbie, Traralgon East, Traralgon South, Rosedale, Willung and Willung South.

PTV buses service Moe, Newborough, Morwell, Yinnar, Churchill, Hazelwood North, Ellavale (Traralgon) and Traralgon East.

We will also commence an express private bus from Sale once sufficient enrolments make this service viable.

Will the current bus network from Traralgon to Warragul continue?

The current bus network from Traralgon to Warragul will be phased out from 2025 when Year 11 and Year 12 students are able to access a VCE curriculum at Traralgon.

How do I enrol?

Discover just how special a St Paul's education can be by arranging a personal tour of our Traralgon Campus with our Head of School and Enrolments Officer.
